NOTICE TO SECOND EDITION.

The first edition of the B Volumes of the District Gazetteer issued in September 1906 was in many respects an experimental publication. Experience has suggested considerable condensation in many directions and a more systematic arrangement of the information given. Furthermore, the Town and Village Census Tables issued as Parts III and IV of the Burma Census Report of 1901 were inconveniently bulky for frequent reference. The decision to publish them in District Volumes naturally suggested their amalgamation with the B Volume of the District Gazetteer, a suggestion which has been carried into effect.

The resultant modifications are briefly :—

(i) Reduction from folio to octavo size.

(ii) Inclusion of a Table of Contents.

(iii) Condensation of Tables giving general information concerning principal towns and villages.

(iv) Addition of lists of fisheries.

(v) Omission of township details in Tables IV and XIII.

(vi) Omission of Tables VII, XX, XXII and XXV.

(vii) Addition of Town and Village Census Tables.

2. An important change has been made in the grouping of figures for the Town and Village Census Tables. The majority of District Officers who were consulted criticised the grouping by residential units on the grounds :—

(i) that a large proportion of the hamlets entered could not be identified ;

(ii) that the tables while purporting to give residential units really gave in many instances the artificial groups which had been adopted as census blocks ;

(iii) that a comparatively large number of entries such as *hle zeik* (landing place), *lèdè* (field hut), *tèzu* (collection of huts), which were not really hamlets detracted from the value of the tables ;

(iv) that statistics by residential units were not required for administrative purposes ;

(v) that grouping by hamlets rendered the Tables for a Township so long that speedy reference was impossible.

These criticisms suggested that a grouping by village-tracts would meet the requirements of local officers. This course has been adopted though with somewhat disappointing results. It has been in many cases impossible to reconcile the lists of village-tracts as given in the Census Records and as entered in the District Registers. Even when the reconciliation has been effected it has sometimes been impossible to allot the population enumerated to the village-tracts as finally determined. Many obvious errors have been detected but their correction would entail a disproportionate amount of labour. The defects in the Census Village Tables must be regarded as the inevitable result of the defects in the official records of village-tracts, and serve to indicate the necessity for a thorough reform of the records concerned with village administration in most districts.
